SUMMARY

Software Engineer and Computer Science graduate specializing in full-stack web development and applied AI. Experienced in building real-world systems including government workflow tools, dashboards, police dispatch platforms, and multimodal AI applications. Adept at TypeScript, React, Python, and Firebase.

WORK EXPERIENCE

Internship, Department of Information and Communications Technology (DICT) Region 02

Dec 2025 – Feb 2026

- Completed 300 hours of the DICT-ILCDB Apprenticeship Program (On-the-Job Training)
- Built the Digital Transformation Center (DTC) Monitoring System — a monitoring website for DTC Training Center workflows (TypeScript/CSS, deployed on GitHub Pages)
- Developed the DICT Travel Order System Frontend — a workflow tool for DICT admin staff managing travel order approvals (TypeScript)

EDUCATION

Bachelor of Science in Computer Science

Sep 2021 – May 2026

Cagayan State University – Carig Campus

Philippine Science High School – Cagayan Valley Campus

Jul 2015 – May 2021

ACCOMPLISHMENTS

DOST Scholarship Recipient

2021 – 2026

Civil Service Professional Examination – Passer

- Grade: 92.12

KEY SKILLS

Languages:		Frameworks:	Mobile:	AI / ML:	Tools & Other:
• TypeScript	• PHP	• React	• React Native	• TensorFlow	• Microsoft Office
• JavaScript	• C#	• Next.js	Database:	• OpenCV	• Git/GitHub
• Python	• HTML	• Node.js	• Firebase	• Gemini API	
• Java	• CSS	• Bootstrap	• SQL	• AI Prompting	

PROJECTS

Dispatch System — Tuguegarao City Digital Incident Report

github.com/kiyoko-org/dispatch

Core Dispatch app and services layer for incident reporting

DTC Monitoring Website

github.com/dict-ojt/dtc

Monitoring website for DTC Training Center workflows.

Hybrid Emotion Detection System

github.com/mrndstvndv/cnnuy

Real-time emotion detection combining facial recognition, text analysis, voice-to-text chat, hand gestures, AI vision, and text-to-speech responses. (Project built by me; repository hosted under collaborator account.)
